47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Sonic.net is an amazing internet service provider. If you lived in San Francisco you would choose them for your own service hands down. They blow the competition out of the water. Please encourage this kind of competition rather than stifling it. Our household got a free sonic fiber upgrade from our previous sonic DSL and it is awesome. We are able to stream TV and households like ours are helping fuel media companies such as Netflix. Sonic also offers excellent privacy and is much less likely than the bigger players to be a black eye because of some hack / leak / compromise.
